Coding

PROJECTS

Calculator

I made a basic working computer calculator in JavaScript.

Tour Api

I made a website in React that will pull from an api and list out all tour destinations on it

English to Spanish Translator

I made an English to Spanish translator in Rust. It's still a work in progress.

Task manager

I made a custom task manager using Node and Mongodb.

SKILLS

I am skilled in Rust, JavaScript, Python, HTML/CSS, and C#

Certifications

Microsoft Technology Associate

Face detector

I made a script in Python that will use your computer camera to see faces
